

WHERE CAN I GET WATER QUALITY DATA?

All water quality data is available free of charge upon customer request or online at www.tmh2o.com. TMWA sends this data to local and state health departments in periodic reports. TMWA has an open door policy on all water quality issues, and customers are encouraged to ask questions regarding any aspect of our water purification system.

The TMWA website (www.tmh2o.com) contains current information on all aspects of our organization and includes many answers to questions frequently asked by our customers. If you do have additional questions, or need more information, please contact any of the following employees:

Kelli Burgess
Water Quality Microbiologist
775-834-8117
kburgess@tmwa.net
